Frontend Engineer | React • Next.js • TypeScript

Frontend Engineer with 3+ years of experience building scalable web applications using React, Next.js, and TypeScript. Experienced in leading multi-product frontend initiatives, architecting reusable component systems, and delivering high-performance user and admin platforms. Skilled in translating complex product requirements into maintainable production-ready interfaces.

WORK EXPERIENCE

Technical Team Lead – Frontend • Full-time

Fiotrix

Jan 2025 - Apr 2026

- Drive frontend engineering across 3+ active products using React and TypeScript, ensuring scalable and maintainable application architecture.
- Mentor and review code for 3 frontend developers, improving code consistency and accelerating feature delivery.
- Coordinate daily with backend engineers and product stakeholders to deliver features across user and admin platforms.

Frontend Developer • Full-time

gharbazar - Parthian Cargo Project

Jul 2024 - Dec 2024

- Launched a bilingual (Persian/English) logistics platform within a 6-month development cycle using React, JavaScript, and Tailwind CSS.
- Developed 10+ responsive UI screens and workflows, ensuring consistent experience across desktop and mobile devices.

Frontend Developer • Full-time

Arnikup • Tehran, Tehran

Feb 2023 - Jul 2024

- Executed frontend implementation for 4+ production projects using React, JavaScript, and Tailwind CSS.
- Mentored 1 frontend intern through pair programming and code review sessions.

SKILLS & COMPETENCIES

Languages: TypeScript, JavaScript

Frontend: React.js, Next.js, HTML5, Tailwind CSS, CSS3, shadcn/ui

State & Validation: React Query, React Hook Form (RHF), Zod

Backend & APIs: Node.js, NestJS, REST APIs

Tools & Architecture: Storybook, PWA, Git, Axios, Code Splitting, Performance Optimization

EDUCATION

Bachelor of Engineering - BE in Computer Software Engineering

Islamic Azad University, Karaj • Karaj, Alborz

Oct 2022 - Present

LANGUAGE

English - B2

PROJECTS

IMP Internal

Fiotrix

[View Project](#)

Frontend Team Lead | React, React Query, TanStack Table, Tailwind CSS, Shadcn UI, Axios

- Led frontend development of a large-scale internal clinic management system with role-based dashboards and workflows
- Architected scalable frontend structure supporting patient records, treatment plans, financial operations, and internal tools
- Designed reusable UI system and data-heavy tables using TanStack Table, reducing duplicated implementation across modules
- Implemented dynamic role & permission system with secure authentication and cross-subdomain session handling

Fiotrix Platform Ecosystem

Fiotrix

[View Project](#)

Frontend Team Lead | Next.js, React, TypeScript, Tailwind CSS, React Query, TanStack Table

- Led frontend development across 4+ interconnected platform modules, including core platform services, user/admin dashboards, and authentication systems.
- Designed and documented 20+ reusable UI components in Storybook, significantly reducing duplicated implementation effort across products.
- Optimized bundle size by approximately 50%, improving application performance and loading speed.
- Established frontend engineering standards through code reviews and mentorship of 2 developers, improving implementation consistency across products.
- Implemented secure authentication workflows with SSO and HttpOnly cookie-based session management.
- Resolved cross-subdomain authentication challenges in collaboration with backend engineers.

Ceocoach

Fiotrix

[View Project](#)

Frontend Lead | React, Tailwind CSS

- Led frontend implementation of a role-based platform supporting 3 distinct user roles.
- Implemented 15+ interactive pages and workflows, including dashboards and create/edit/detail flows.
- Defined frontend data structures and API contracts, accelerating backend integration cycles.
- Iterated user interaction flows to improve usability and streamline platform navigation.

Gharb Azar

Arnikup

[View Project](#)

Frontend Developer | React, React Router, Vanilla CSS

- Delivered a responsive commerce platform within a 3-month timeline, including 15+ screens across landing pages, product flows, cart, and user/admin panels.
- Crafted fully responsive interfaces for desktop, tablet, and mobile devices.
- Collaborated closely with backend developers to meet aggressive release deadlines.

Parthian

Gharb Azar

[Project Link](#)

Frontend Developer | React, Axios, Formik, Yup, Mapbox GL

- Completed end-to-end frontend implementation within a 4-month project cycle.
- Developed 8+ logistics-focused workflows and operational screens.
- Integrated 5+ CRUD-based API modules for shipment and operational management.
- Engineered scalable form validation workflows using Formik and Yup.
